

SULZER TELLS OF MURPHY'S THREAT TO WRECK HIS ADMINISTRATION

Former Governor's Refusal to Appoint Gaffney High- way Commissioner Cause

APPEARS AS WITNESS

Sulzer Appearing as Witness In Whitman's John Doe Inquiry Makes Statement Under Oath

EXPLAINS TELEGRAM TO BOARD

NEW YORK, Jan. 21.—William Sulzer testified under oath today that Chas. F. Murphy, leader of Tammany Hall, threatened to wreck his administration as governor of New York if he did not appoint James E. Gaffney commissioner of highways. He said he had declined to make the appointment after a conference in Washington with United States Senator James A. O'Gorman. The senator told him, he said, that Gaffney was Murphy's chief bagman and that Gaffney had attempted to hold up James O. Stewart, a state highway contractor and client of the senator's for \$100,000 and "that to appoint him would be a disgrace to the state of New York."

Sulzer's testimony was his first sworn statement of charges he has made against Murphy and in many particulars he added to and elaborated on.

Appears as Witness.

Sulzer appeared as a witness in District Attorney Whitman's John Doe inquiry into state highway graft. He was called to explain why, as governor-elect, he had sent a telegram to the state canal board questioning it to defer action in the matter of a \$3,000,000 canal contract upon which Stewart was lowest bidder. Stewart who failed to get the contract testified at a previous hearing that a man named Gaffney had asked him for a contribution of five per cent of the contract.

Sulzer said today that he had sent the telegram because he had been told by George H. McGuire of Syracuse that there was danger that Stewart's bids would be thrown out and that this would be a great injustice to Stewart and the state of New York.

First Clash With Murphy.

For having requested the canal board to defer action in the matter, Murphy summoned him, Sulzer said and told him that he was putting in where he did not belong and that he was "not beginning right as governor."

When Sulzer resented this and told the Tammany chief that he intended to be his own governor, he swore that Murphy replied:

"Like hell you will. I'll see where you'll end up damned quick."

This interview, Sulzer indicated, marked his first clash with Murphy. Sulzer said that Senator O'Gorman, whose law partner, George Gordon Battle, took Stewart's case up with the canal board, congratulated him upon having sent the telegram.

He testified further that when he became governor he agreed with Attorney General Carmody, a member of the canal board, that Stewart ought to get the contract and had sought to "get him justice."

The other members of the board, however, outvoted the attorney general six to one.

Signs Waiver of Immunity.

After a parley with the district attorney, Sulzer signed a waiver of immunity and took the stand shortly after three o'clock.

"I have no information that I care to conceal and will answer any question you care to ask," said the former governor.

Mr. Whitman inquired about a telegram Sulzer sent to the state canal board in December, 1912, asking it to defer action on the matter of awarding a contract to James C. Stewart.

Sulzer said that shortly before this he received a telegram from George H. McGuire which stated that if Stewart's bid was rejected it would be a great injustice both to Stewart and the people of the state.

"McGuire said that Stewart's bid was thousands of dollars lower than any other and I thought it was my duty," said the witness, "as governor-elect to request the board to defer action."

He sent the telegram on Dec. 19th, and the next day, he said, John H. Delaney, now commissioner of the bureau of efficiency at Albany came to see him at his office.

"He seemed very much perturbed," continued Sulzer.

"He said, 'my God, what have you done? You have spilled the beans. The chief is all worked up about it.'"

"I said, 'what have I done?' He said, 'you sent a telegram yesterday and it has angered the chief. I'm afraid it's all off between you. Now, he wants to see you.'"

"I said, 'Why John, what's the simplest thing in the world?' and showed him this telegram from McGuire. I told him I didn't see why Murphy should get mad at a thing like that."

Sulzer said that at Delaney's request he called up Murphy and the latter asked him to come to see him. He said he saw Murphy at Delaney's

cos' that afternoon. Mr. Murphy took me into a smaller room, said Sulzer. "He looked at me and I could see he was perturbed. He said, 'why did you send that telegram to the canal board?'"

"I said, 'that's very simple,' and I showed him that telegram from McGuire."

"He said, 'you've made a great mistake; you don't want to bull into things that don't concern you. I'll attend to this.' He looked at me quizzically and wanted to know if Senator O'Gorman hadn't asked me to send this telegram."

"I said, 'no, I'd never seen O'Gorman. Then he said, 'keep your hands off. This is none of your business. This is no way to begin as governor.' He went on in that strain and I listened to him because it was the first I had seen of the workings of invisible government. I told him I was going to be governor and that he'd better understand it. He exclaimed, 'Like hell you are.'"

Would Disgrace State.

Sulzer said Senator O'Gorman had told him later that James E. Gaffney was "chief bagman" and that Gaffney had held up Stewart for \$100,000.

O'Gorman told him this, he said, when he informed the senator that Murphy wanted Sulzer to appoint Gaffney state highway commissioner. "O'Gorman told me it would be a disgrace to the state to appoint Gaffney," Sulzer declared.

This interview, the witnesses said occurred in Washington the day of President Wilson's inauguration, when the senator invited him to luncheon.

"I told Senator O'Gorman," said Sulzer, "that Murphy was putting the screws on me and bringing to bear all his influence to have me appoint Gaffney commissioner of highways."

"The senator leaned over the table and in his grim way, looked me in the face and said 'if you appoint Jim Gaffney it will be a disgrace to the state and will ruin your administration. Don't you know that he's Murphy's chief bagman and goes around holding up contractors and that he held up my friend Stewart for \$100,000?'"

Says Murphy Tried to Side-step.

"He told me he had gone to Murphy and told him he would not have his client black-jacked; that Murphy tried to side-step and disclaim all connection with what Gaffney had done but that he knew that wasn't so."

"I said to the senator, 'I'm glad to hear you say that. I agree with you.'"

Sulzer said he saw Murphy the next day at Senator O'Gorman's house in Washington.

"There were several other Democrats there," he said, "and I listened to what they had to say. When I went out of the room Murphy followed me into the corridor and said he wanted me to stay over until the next day. I told him I had to get back to New York. Then again he importuned me to appoint Gaffney. He said if I would do that I could have my own wish. He said Gaffney knew what to do and that it was an organization matter. I told him that I would refuse to appoint him. Then he said, 'It's Gaffney or war.'"

"If anybody should ask you," smiled the former governor, "it has been war."

Tried to Be Diplomatic.

"Did you say to Mr. Murphy," asked Mr. Whitman, "that Gaffney was a grafter, a collector, a bagman or a blackmail?"

"No," replied the witness, "I was trying to get along with him as best I could. I wanted to be diplomatic. I knew his power. Then he said, 'if you don't do what I tell you to do I'll throw you out of office and wreck your administration.' I told him I was not going to be a proxy governor, a rubber stamp governor."

Sulzer declared another meeting with Murphy in New York March 18, of that year, when the Tammany leader attempted to induce him, to make other appointments.

"Mr. Murphy was the boss," continued Sulzer, "and was governor. I did everything in my power to get along with him. I was willing to do anything within reason but I was not willing to violate my oath of office, nor shut my eyes to graft. When I told him this, Murphy laughed at me."

Saw Graft Everywhere.

Sulzer declared that when he began his investigations into various state departments after he became governor, "he was staggered at the overwhelming corruption."

"It was graft, graft, everywhere," he said. "Nor any man to stop it." He declared Murphy had sent John H. Delaney as a messenger to him demanding the dismissal of John A. Hennessy as a state investigator. He said Murphy wanted to arrange for telephone connections between Delmonico and the executive mansion.

"I asked Murphy to write," said the witness, "but he said he never wrote."

Referring to the reported secret conference between Murphy and Delmonico at Delmonico's where Sulzer has previously charged it was decided to impeach him, he said Jay W. Forest of Albany had a letter in his possession which would prove such a conference had been held. Up to the very last minute, he said, "I had been willing to compromise. I would not have been removed. Mr. Murphy sent word time and again that if I'd quit, he'd quit and that Senators Bradley, Wagner, Sanner and Ransperger would quit."

Asked why he had removed C. Gordon Reel as highway commissioner he said:

CHAMPION SHADES ROCK ISLAND BOY

JOHNNY COULON WINS FAST TEN ROUND BOUT AT RACINE

Champion's Superior Boxing Entitles Him to Very Slight Lead in Battle With Young Sinnet—Coulon Claims He Broke His Hand in Fourth Round.

RACINE, Wis., Jan. 21.—Johnny Coulon, bantam weight champion, won by a shade from Young Sinnet of Rock Island in a fast ten rounds here tonight.

Coulon's superior boxing entitled him to a margin but it was a very slight lead indeed. The rugged Rock Islander proved a willing mixer and staggered Johnny repeatedly with heavy swings to the head and face.

Coulon apparently proved a disappointment to the three thousand fans that crowded the arena and the general sentiment seemed to indicate that Coulon was not the fighter of old. As the rounds went on, it was apparent he was tiring rapidly and he frequently resorted to clinches. It was evident from the first minute's fighting, however, that Johnny's cleverness would be a hard problem for Sinnet who stolidly followed Coulon about the ring, the latter dancing and feinting in an attempt to draw an opening.

Repeatedly the champion showed his mastery at boxing, landing with clean jabs to the face and dodging the wild rallies that Sinnet seemed always ready to unload.

Best Showing in Second.

Sinnet's best showing occurred in the second round. He opened with a hard jab to the face and made Coulon miss repeatedly. Sinnet followed up his advantage with lefts and rights to the head and body and toward the close of the round staggered Johnny with a left swing to the head. Coulon's retaliatory efforts apparently lacked steam. As the bell sounded, Sinnet collided with a hard blow over the eye, resulting in a cut which gave him considerable trouble throughout the bout. In the third session Coulon quickly took advantage of his opponent's injured eye and repeatedly jabbed the sore spot, somewhat dazing Sinnet, and causing him to back away and rub the blood.

The fourth, fifth, sixth and ninth rounds were slightly in favor of Coulon, while the seventh and eighth easily went to Sinnet.

In the seventh round the crowd came to its feet with yells for the Rock Island boy after he staggered Johnny with several well directed blows to the face and jaw.

The closing round was fairly even. The champion sought to extend himself but was more than met on equal terms by his rugged opponent.

While Coulon's cleverness was at all times, far superior to the slow going Sinnet, it was evident he could do little damage. At no time did he have an opportunity to score a decisive victory.

Coulon said he broke his hand during the fourth round.

Kiviat Wins Derby.

Paterson, N. J., Jan. 21.—Abel R. Kiviat of the Irish-American Athletic club won the Elks' derby at 1-000 yards, the principal event at the Elks' indoor athletic games held here tonight. The time was 2:17 2-5.

Jack Ellor of the Irish-American A. C., an Olympic runner, equalled the world's indoor record of 7 2-5 seconds in the 60 yard low hurdles. In the 60 yard sprint Alvah T. Mayer of the I. C. A., equalled the American indoor record of 6 2-5 seconds.

ALL NATIONAL BANKS MUST ENTER RESERVE SYSTEM BY FEBRUARY 22

Treasury Officials Issue Statement Designated to Clear Up Misunderstanding.

Washington, Jan. 21.—Misunderstanding among many bankers as to that part of the currency act which provides when banks shall enter the reserve system, led treasury officials to issue a statement tonight designed to clear up the situation and to prevent needless inquiries. The statement says in part:

"A number of banks appear to be under the impression that only banks located in reserve cities are required as a matter of law to signify their acceptance of the federal reserve act within sixty days of its passage. All national banks are required to signify their acceptance or non-acceptance of the act within sixty days, irrespective of their location."

"It is not compulsory that state banks and trust companies shall signify within sixty days from the time of the passage of the act."

More than 4,400 banks have made legal application for membership in the new system and if applications continue to reach the treasury at the present rate there will be close to 6,000 at the end of the week. There are only 7,500 national banks in the United States and since by far the greater portion of the applicants are national banks indications point to but few remaining without the system. The limit on national banks is February 22.

"Reel was incompetent and a fool. He came to me and said he would give me a great story of corruption but he never told it to me."

Sulzer will be called to the stand again on Friday.

THINK HUERTA MAY APPOINT DE LABARRA CHIEF OF CABINET

Authorities Believe Presi- dent Will Resign in Fran- cisco de la Barra's Favor

MEXICANS VISIT LIND

Former Minister of Interior Con- fers with President Wilson's Personal Envoy in Vera Cruz

REBEL FORCES ARE CONFIDENT

VERA CRUZ, Jan. 21.—The former Mexican minister of the interior, Jesus Flores Magon, had a second conference with John Lind, President Wilson's personal envoy, last night and then proceeded to a town nearby, first informing Mr. Lind he desired to confer with him further before returning to the capital.

While Mr. Lind's reiterated his statement that the conference was without political significance and that he has not been informed that Senator Magon is acting as the representative of President Huerta, it may be said that the ex-minister is the latest and most important of several prominent Mexicans to visit Vera Cruz recently and converse with Mr. Lind, all of whom, it is believed have represented President Huerta although without semblance of official character.

To Mr. Lind, these visits have been welcome because they were informative on many points and of supreme importance as symptomatic of the conviction which is said now to be pressing strongly on the Huerta government of the necessity of coming to terms with Washington.

It is understood Mr. Lind intends soon to indicate his indisposition to receive more envoys from President Huerta unless they come officially accredited. This would open the way for the demand that the revolutionists be represented at all further conferences which would have for their main purpose negotiations for peace as a preliminary to the settlement of all other matters at issue.

The belief is held in authoritative quarters here that President Huerta feels the time has come to learn what terms he may make with President Wilson and the rumor is current that Huerta intends to appoint Francisco de la Barra chief of his cabinet, he himself resigning in the latter's favor. Senor de la Barra would then succeed to the presidency in compliance with the law, General Huerta taking personal command of the forces against the revolutionists.

Villa Ascertains End Is Near.

Chihuahua, Jan. 21.—"It soon will be shown that the United States has not waited in vain in the belief that the Huerta government is slowly crumbling," said General Francisco Villa today. "With the northern division of the Huerta army imprisoned in the United States and with General Jose Refugio Velasco's troops trembling at Torreon the only point they now hold in the north, it will not be long before the usurper Huerta will be swept away by public opinion."

"At first it was only our arms that brought us victories but now the people of Mexico are convinced of the seriousness of the revolution. Our strength is growing daily. We are finding that popular approval is as effective as bullets."

"But we are not forgetting that bullets still are necessary. The fighting will continue. Our success at Ojinaga in pushing the federal division into the United States has had the effect of a tonic on our soldiers."

"I am convinced that the prospective battle near Torreon will knock another prop from under the tottering throne of Huerta. The federals are aware that they must put up a vigorous fight there or their cause is lost. Once we get south of Torreon every city between us and Mexico City will fall."

PUGILIST'S COUNSEL ATTACKS INTERPRETATIONS OF MANN ACT

CHICAGO, Jan. 21.—Interpretations of the Mann white slave act purporting to show that the act was intended to preventing interstate transportation of women for immoral purposes alone were attacked by counsel for Jack Johnson, negro prizefighter in a brief filed in the United States circuit court of appeals today. Johnson was convicted for violating the act. The brief quoted at length from the reports of the United States senate and house of representatives when the act was under discussion.

MINERS ATTACK THE FEDERATION OF LABOR

ILLINOIS LABOR LEADER STARTS SPEECHES AGAINST FEDERATION

Duncan Donald Declares Body Is "Reactionary, Fossilized, Worm Eaten and Dead"—Thomas Kennedy Asserts "Organization Is Rotten to the Core."

INDIANAPOLIS, Ind., Jan. 21.—Attacks on American Federation of Labor coupled up in convention of United Mine Workers of America during the debate on resolutions committee report late today. The speeches against the federation were started by Duncan McDonald, the Illinois labor leader during the discussion of a resolution regarding industrial unionism.

A number of resolutions dealing with industrial unionism many of them demanding a convention for April 1, 1914 to consider the subject were submitted to the committee. The committee opposed the calling of the convention and drafted a sub-resolution.

"If any one can get a progressive resolution through the American Federation of Labor," declared McDonald, "he will deserve a monument for he will be a great man as Washington. That body is reactionary, fossilized, worm-eaten and dead," McDonald said he as a delegate of the mine workers had attended the Seattle convention of the federation and was almost thrown bodily out for supporting industrial unionism.

Only Hope of Labor Movement.

"The conditions in the American Federation of Labor are about as Delegate McDonald has stated," said President John P. White of the miners. "So far it has been impossible to get an industrial unionism resolution passed by that body. The time is coming soon, however, when the labor leaders will have to see that in industrial unionism lies the only hope of the labor movement in this country."

Thomas Kennedy of Hazelton, Pa., declared that almost every delegate from the miners to the federation in recent years has been insulted in the convention.

"That organization is rotten to the core," he concluded.

Despite the attack on the federation, the committee sub-resolution was adopted.

"There seems to be two interpretations of the law—one for the powerful capitalists and one for the laboring people," declared President Ryan. "The capitalists combine and conspire to increase prices and the like, then, when they are caught red handed they are told to dissolve, go and sin no more. Not so with the laboring people. When we are charged with conspiracy, they force us to take on punishment."

Ryan thanked the miners for the moral and financial aid they had given the iron workers and declared that no act of his, past, present or future, should make the union man feel ashamed. The question of transferring the convention from this city was passed over today without a ripple. The committee combined a number of resolutions on this subject with a number of others relating to the erection of a permanent headquarters building and a printing plant for the Mine Workers' Journal, in one and it was referred to a referendum vote of the miners. The delegates declared they did not want to take the responsibility for placing a \$500,000 assessment on the members.

The convention voted to appoint a committee to work in connection with the bureau of mines for a federal mining law, or, if that were unconstitutional for uniform mining laws in the various states containing coal mines.

CHICAGO, Jan. 21.—A \$400,000 fund for the purchase of farm lands for the agricultural department of the University of Illinois is included in the budget of \$2,500,000, which the trustees of the university planned to approve at their meeting here today. The budget probably will exceed that of last year by \$500,000, it is said. The farm lands appropriation is the largest single item.

JULIA FLAKE BITTER AGAINST STEP-FATHER

ASSERTS SHE WILL GO ON STAND AND SEND HIGGINS TO CALLOWS

Galesburg Girl Implicated in Mother's Murder Will do all in Her Power to Aton for Crime—Seems to Realize Enormity of Offense for First Time.

GALESBURG, Ill., Jan. 21.—Julia Flake today turned on Robert Higgins, her stepfather, who confessed to shooting his wife in order that he might be free to love his 15-year-old stepdaughter. It was the girl's fifteenth birthday and despite her former confessions that she had persuaded Higgins to kill her mother, she was bitter against him.

"He tempted me," she said, "and I will go on the witness stand and send him to the gallows."

The girl is at Alton under the guard of Mrs. C. E. Lorimer, probation officer of Mercer county and is permitted to sell no one but relatives.

To a girl cousin she said: "This is the most unhappy birthday I have ever had. I wish people wouldn't talk so and would leave me alone."

"I was a fool. Now that I realize the terrible things I have done I hate him. I will do all in my power to atone for the death of my mother. I will let nothing stand in the way of justice."

For the first time the girl today seemed to realize the enormity of the offense of which she is accused. She wept almost continuously.

Aged Father With His Son.

Higgins in the Mercer county jail seemed in no way moved by the news that his stepdaughter had turned against him. He spent much of the day with his aged father, Albert Higgins, a wealthy farmer and a man of standing in both Knox and Mercer counties.

The elder man said he would stand by his son and spare no pains to obtain him a fair trial.

"Well, we'll fight it out, Bob," he said, "there must be some awful mistake."

The father has indicated that his son's defense will be insanity although attorneys for Higgins at first said they would urge him to plead guilty and throw himself on the mercy of the court.

Repudiates Confession.

Higgins tonight repudiated his signed confession made to the state's attorney and denied that his love for his stepdaughter had led him to kill his wife.

"I made the confession," he said, "when I was in an excited, nervous state. The detective told me I had to make a confession to clear the girl. He never gave me a chance to talk to anyone or to have counsel. I am innocent of my wife's death. I did not know the gun was loaded. I had been hunting Saturday and can prove that I unloaded the gun when I returned home."

CORONER'S JURY FAILS TO FIX THE RESPONSIBILITY

Men Investigating Murder of Non- Union Miners are Unable to Find Guilty Parties.

Houghton, Mich., Jan. 21.—Responsibility for the murder of Thos. Daily and Henry and Arthur Jang, non-union miners who were shot to death in their beds at Painsdale on December 7th, was not fixed by the coroner's jury at the conclusion of the inquest today. The verdict was that the men came to their death at the hands of persons unknown, by means of rifles fired from outside the Daily home.

The case also is being investigated by the special grand jury which is inquiring into disorders resulting from the copper miners' strike. The three men slain were British subjects.

Amanda Shepus, a young Croftian servant girl employed in the Daily home until two days before the murder was the principal witness at the inquest. She denied that she had told Mrs. Daily she was going to leave because a striker had warned her that she would be killed if she remained here.

"Why did you leave?" the girl was asked.

"I was afraid to go home nights," she replied.

"Were you afraid of the strikers?" "No, I was afraid of the deputies."

The shooting took place at 1:55 a. m., on Sunday, Dec. 17th. The girl had left on the preceding Friday.

Judge O'Brien is expected to return tomorrow from Eagle River in Keweenaw where he has been holding court and will then be ready to receive any further report from the grand jury. Indications are the jury will complete its work before the end of the week.

BRITISH SUBMARINE FOUND IN 23 FATHOMS OF WATER

PLYMOUTH, Jan. 21.—The British submarine A-7, which sank to the bottom of White Sand Bay, on Friday, last, during maneuvers was located today in twenty-three fathoms of water, four miles from shore. The submarine is lying a little east of the spot where she disappeared. The discovery was due to a member of the crew of one of the search vessels, who noticed oil floating on the surface. A diver was immediately sent down and found the submarine. It was too late to start raising operations, which will begin at daybreak.

Springfield, Ill., Jan. 21.—At a conference here this afternoon between H. S. Magill, Springfield, president of the Illinois Teachers' association and G. P. MEASURE TO GRANT SUFFRAGE TO WOMEN NEARS DISPOSITION

Constitutional Amendment Is on Verge of Disposi- tion in the Senate

VOTE ON ALASKAN BILL

Alaskan Railroad Bill to Be Voted on Today Has Presi- dent Wilson's Support

OTHER NEWS OF WASHINGTON

WASHINGTON, Jan. 21.—The constitutional amendment resolution to grant suffrage to women was on the verge of disposition in the senate today, a speech on the subject by Senator Ashurst in charge of the measure, alone preventing its coming to a vote. Not a senator objected to its being taken up.

Senator Gallinger the Republican leader, said he intended to vote for it.

Suffrage amendment may come up again tomorrow, as it is first on the regular calendar. Senator Ashurst will endeavor to fix a time for making the measure, the "unfinished business" of senate when the agricultural extension bill is out of the way. There is so little apparent desire among senators to speak against the resolution that it may be put upon its passage as soon as laid before the senate.

Announcement was made today of the full membership of the congressional committee of the National American Woman Suffrage association. In addition to Mrs. Medill McCormick, chairman of the committee, the other members are: Miss Mary C. Bradford, Colorado; Mrs. Antonette Funk, Chicago; Mrs. Sherman Booth, Chicago; Mrs. Edward Drier of Brooklyn, Mrs. John Tucker, San Francisco; Mrs. Desha Breckenridge of Lexington, Ky., and Mrs. Helen H. Gardner of Washington, D. C.

Mrs. McCormick will confer with Mrs. Booth and Mrs. Funk on the work in congress.

To Be Made Public Soon.

Publicity of the tentative drafts of anti-trust legislation measures suggested by the president in his message was determined upon today by the legislative committees in the house and senate. Representative Clayton announced tonight that such of the five bills as have been tentatively prepared by his sub-committee would be laid before the Democratic members of the judiciary committee tomorrow and made public as soon as possible thereafter. He thought it probable that some of them might be introduced tomorrow.

Supported by Wilson.

Support came from the white house today for the Alaskan railroad bill which is to be voted on in the senate tomorrow. President Wilson told senators among his callers that he favored the project for opening up Alaska's resources and hoped the measure would be passed.

The bill introduced by Senator Chamberlain with amendments by the committee on territories, would provide for the construction and operation of a line of not more than 1,000 miles of railroad from the coast to the interior of Alaska at a cost not to exceed \$35,000,000.

AMENDMENTS ADOPTED TO RAMBLER CONSTITUTION
At the regular meeting of the Student association of Illinois college Wednesday morning in the chapel amendments to the constitution of the College Rambler were adopted affecting the personnel and terms of office of the staff and a new position, that of Conservatory editor, was created. Hereafter, members of the editorial board will begin their terms at the first of the school year instead of at the beginning of the second semester. In February, the business manager was made a member of the board and given the right to vote. He will be remunerated after this on a basis of collections made instead of total profits accruing at the end of the year. The amendment providing that the faculty advisor be given the responsibility of passing on all matters going into the publication was voted down.

OFFICERS FIRED WHEN YOUNG MAN FLED IN DARKNESS

George Spires Jr., Had Narrow Escape From Policeman's Bullets. Did Not Stop for Halt Order and Was Taken for Night Prowler.

A near-tragedy occurred on South East street Wednesday morning about 1:30 o'clock when two policemen fired at George Spires, Jr., a well known resident of the third ward, the second shot nearly hitting him. It was not until sometime afterward that Mr. Spires learned that the two men who accosted him were policemen and not hold-up men as he supposed, and that the two officers learned that the man they attempted to catch was Mr. Spires, and not a suspicious character.

And this is the way Mr. Spires tells the story:
"I was walking out South East street and was in the middle of the street. When near the brook I saw dimly two men coming toward me, walking on the sidewalk. Just as I was opposite them I heard one tell the other to pull his cap down and when I was about sixty feet the other side of them one man turned, flashed an electric light at me and asked, 'where are you going?' Hearing of so many attempted hold-ups, I naturally supposed that someone was attempting to hold me up and I started to run. Just then one of the men fired at me, I stumbled against the curb and just as I fell another shot was fired, this time I could feel the dirt that was ploughed up by the bullet.

"I got up and managed to get to the residence of R. W. Dodsworth by going through back yards and climbing two fences, and I was so nearly out of breath that Mr. Dodsworth called the police station for me and asked the sergeant to send Capt. Trahey out in a carriage. When he arrived I told him of the case and he called the station to ask if there were any officers in the third ward, and was informed that Officers Baker and Moore were. In the meantime they had reported to the station that they had taken a couple of shots at a man in an attempt to catch him, and in this way it was learned that the police were the men who attempted to stop me. Capt. Trahey then took me home in the carriage."

Mr. Spires said that he had no idea that the men were officers. He had about \$100 in his pocket, was wearing a \$260 diamond ring, and carrying a gold watch and naturally felt pretty nervous when he thought foot pads were about to catch him. The officers have lately been keeping an especially watchful eye out for hold up men and burglars in the third ward and assert that when they called to Spires to stop he fled in the darkness and they naturally assumed that he was some sort of a deceiver. They say the shots were fired in an effort to make the fugitive halt and not with the intent of "winging" him.

FORMER PRESIDENT ARRAIGNS "IMPRACICAL REFORMERS"

Taft Dwells at Length Upon the Dangers of Literature and Sex Plays.

Philadelphia, Pa., Jan. 21.—Former President Taft called a halt to-night in the movement toward "purge Democracy" and greater social and individual freedom. In a speech at the commencement exercises of a local college he arraigned "impractical reformers" and demagogues who seek to arouse class consciousness. He took issue with the tendency to inject more Democracy into education and declared that the spread of "liberty" in literature and on the stage and indirectly in education was a danger to the young men and women of the country. Mr. Taft admitted the benefits of many modern crusades but added:

"The people are sufficiently aroused. Now let common sense prevail to distinguish between what is good and practical and what is luring, but deceitful in its promises. This great social consciousness beneficial as it is, has produced some hysterical excesses. Speaking of attempts to cure defects in education by more Democracy he said, 'we have had the ridiculous exhibition of school children striking because some favorite principal was transferred to another school and we find the newspapers stimulating such movements and weak minded parents looking with pride upon the courage and enterprise of their offspring. In my day and that is not so long ago, such children if they had some home would have been properly treated with a spanking.'"

The former president dwelt at length upon the dangers of the literature and sex plays, which he said, "spread lubricity under the plea that vice may be avoided by teaching its awful consequences. By dwelling on its details and explaining its penalties, sexual subjects are obtruded and text books are written and former restraints of modesty are abandoned."

The general attitude of suspicion and hostility toward the well-to-do and to the owners of co-operative stores the responsibility for the yielding of their women employees to vice by saying that the small salaries which they paid led to that result.

"We are not going into Socialism," asserted Mr. Taft, "and if we were, it would substitute a tyranny of the majority and a dead level of retrogression that would not mean more happiness for anybody. There is no royal road to the prizes of life and we cannot be legislated into them."

POULTRY CULTURE. Article XXIV.

House Capacity.—In a hen house fairly well ventilated, at least 30 cubic feet of air space should be allowed per fowl. For 30 hens then the house should provide 900 cubic feet on interior space. This can be done by making the floor of the house in the form of a square 12 feet each way and making the roof average six and one-fourth feet high. The house is highest at the front which faces to the south.

Single or Double Pitching.—The roof may be of one pitch continuous from front to rear, slanting sufficiently to readily shed rain and snow water. The house will be improved in appearance if the peak of the roof is placed about one-third back from the face of the house with a pitch to the front and another to the rear.

Cupola Cap.—A little cupola, containing a ventilator, caps the middle of the roof peak, partly for ornament, but more for use in hot weather to help keep the house cool. The ventilator is made so that it may be closed in very cold weather. It may, is desired, be omitted.

Door and Window.—A door about six feet high is placed at the east end and a window, consisting of a single sash at the west end, both near the front of the house. The front is made of the form of two large doors, which are to be opened out wide on bright warm days, allowing the sun to reach each part of the interior. Wire netting protects the front when the doors are open. Thus the whole house is turning into an open scratching shed on pleasant winter days. A single sash window is placed in each of the large doors which form the front of the house so that light is not lacking when the doors are closed on stormy or chilly days.

In extreme cold situations the walls and roof of the house may be sheathed inside and the space filled with dry sawdust or shavings if necessary.

A house of half this size, say seven and one-half feet floor plan built in the same general style, will answer nicely for a flock of twelve fowls.

On the other hand the fowls number about 60 the house may be doubled in length and thus accommodate a second flock of 30.

Furnishings.—The interior fittings of the hen house should be as few and simple as possible and all easily removable so that they may occasionally be placed out of doors in the sunshine and fresh air or thoroughly sprayed, white washed or otherwise cleaned and treated to prevent insects and disease germs harboring in the house.

Roosting Place.—A roosting platform may be placed one and one-half or two feet above the floor in the back part of the house. It may be three feet wide and extend the full length of the house if 30 large fowls are to be provided for. The platform should be made of matched boards, clear of knots, smoothly planed and closely fitted together. Perches are not always needed, but if thought necessary may consist of two by three scantlings, planed smooth, rounded at the upper edge and placed broadside down about six inches above the platform. To insure protection of the fowls during the coldest nights, from danger of becoming chilled or freezing their combs, the walls and ceiling of the roosting place may be heated and the front protected by a curtain, which later is kept up out of the way in moderate or warm weather.—H. A. McKee, Secretary, Illinois Farmers' Institute.

PALESTINE SAID TO BE THE OLDEST CITY IN ILLINOIS

City Was Laid Out in 1818—First Land Office in State Was Located There and First Grain Shipments Were Made From That Point.

In a recent issue the St. Louis Globe Democrat publishes a story about Palestine, Ill., which it terms the oldest city in the state. Along with the article is a picture of George W. Harper editor of the Robinson Argus. Mr. Harper was for a number of years a trustee of the Illinois School for the Deaf and his son is now employed there. Some history of Robinson is given along with that of Palestine for the two cities are not far apart. Palestine became the county seat of Crawford county in 1818 and it was in 1843 that this honor was transferred to Robinson.

Some extracts from the article will be of interest to those who care to consider the early days of this great state.

Palestine Historic City.
"Nested in one of the most verdant spots in Illinois is the historic village of Palestine.

"For the benefit of the many unacquainted with the part this town has played in the history of Illinois, it may be well to recount some incidents in connection therewith, giving due credit to the official Crawford and Clark county history which was compiled several years ago, to the Rev. E. W. Sears, present pastor of the Christian church at Palestine, and the Chicago Historical society.

"As the Indians succeeded the mound builders, the Anglo-Saxons followed close in the footsteps of the retreating savages. The first white people of Illinois were subjects of France. Such men as Marquette, La Salle, Joliet and De Frontenac, traversed Illinois territory. Settlements were made along the Mississippi and Wabash rivers. Marquette sailed down the "Father of Waters." For almost 100 years Illinois was under French dominion. It passed to Great Britain through the Governor of Virginia and George Rogers Clark, and thus the banner of the thirteen original colonies floated to the breeze on the banks of the Mississippi.

The County of Illinois.
"The contest of General Clark made Illinois a county of Virginia. The General assembly of Virginia in October, 1778, passed an act establishing the county of Illinois, and for more effectual protection and defense thereof. So, in a way, to Patrick Henry, who said: 'Give me liberty or give me death,' do we owe the official existence of the state of Illinois.

"The official acts record book of John Todd, the first civil Governor of Illinois, is now in possession of the Chicago Historical society. Many interesting facts are to be gleaned from this record.

"Kaskaskia and Vandalia were the first capitals of Illinois. Palestine would have been the first seat of justice instead of Vandalia had it not been for its unfortunate geographical position, almost on the extreme border of the state—within two miles of the Wabash river, in Crawford county.

"Kaskaskia, now being in official oblivion, leaves Palestine the oldest town in Illinois. The first settlement of Crawford county was at Palestine, in Lenoire township, where once was located Fort Lamotte.

City Laid Out in 1818.
"Palestine was laid out in 1818, which was the same year the state was admitted as a state. The county seat was moved from Palestine to Robinson in 1843, where it still is.

"The Ruralist, the second newspaper at Palestine, was published by Samuel R. Jones of Virginia. George W. Harper, who came from Richmond, Ind., had mechanical charge of the paper. Mr. Harper is now owner and editor of the Robinson Argus.

"The first grain of the state was purchased and shipped from Palestine. Also the first pork packing and shipping was done at and from Palestine by Bristol & Co.

The First Land Office.
The first land office of Illinois was at Palestine. The transfer of the first land comprising Chicago was made through the land office at Palestine.

"Therefore Palestine may be considered the birthplace of Chicago. The land office was established at Palestine May 11, 1820. The first land sale was made several years previous. Joseph Kitchell was the first registrar to 1841. Jesse K. Dubois held this office from 1841 to 1842, and later from 1849 to 1853. The house in which Mr. Dubois lived is still standing and serviceable. This is the oldest house in Palestine and doubtless in the state. It is over 100 years old. It is now the property of Mrs. Joseph Voke and her son Arthur.

"Palestine produced in its palmy days, a Governor, A. G. French; an attorney general, Wickliffe Kitchell, and a circuit judge and member of congress, James C. Allen, who died during the past year at Olney, Ill."

HEALTH CERTIFICATES PROCURED BY STUDENTS

Pupils of the Various Public Schools Comply With the Orders of City Health Warden King.

Wednesday morning was the time set by City Health Warden King, when all children of the public schools and colleges should present health certificates or else remain home. For the past two days the physicians of the city have been busy writing out certificates and in most cases this was done without fee. From the reports it shows that very few pupils are out from being sick themselves or sickness in their homes.

The percentage is quite low of pupils kept at home by the plan as noted from the following data:

First ward	2
Second ward	0
Third ward	15
Fourth ward	6
High school	6
Eighth grade	0
Total	29

There are a great many pupils who have been out for several days, some for tonsillitis, and a great many for mumps. In the colleges the authorities complied with the orders of the Health Warden and everything points that with strict quarantine rules and care among families themselves and with the advent of colder weather, the amount of sickness in the city will decrease.

Route vs. Waverly, Friday, 8 p. m.

AT THE GRAND FRIDAY.
It is always good to look upon

robust young men, theatrically clad in golden breastplates, chain mail, roached helmets, tunics, and girt about with the short swords carried beneath banners on which appear the initials S. P. Q. R., meaning the sons and the people of Rome in the days of the Caesars. Such a display is made in a masterful fashion in "The Light Eternal," the big spectacular drama to be seen at the Grand Friday night, Jan. 23.

The inspiring drama of Christian martyrdom in the time of Emperor Diocletian, lends itself to the most magnificent stage adornment, because when the spirit of this conquering people is to be shown on the stage, the salient facts of their lives must fairly shine forth in any simulated depiction, so deeply impressed upon the modern consciousness is the period of the Roman Caesars. Here the barbaric splendor of the east is combined with the war like power of the west.

The ladies of Brooklyn church will give a chicken pie supper at the church Thursday evening.

is like any other purchase—it does not pay to skimp quality. There is no satisfaction in owning an inferior suit of clothes—no pride of possession. You know, and so does any one else familiar with clothes, that it possesses no marks of individuality.

Quality demands a fair purchase price. When a suit or overcoat is offered at a ridiculously low price, you may be assured that they are not clothes you would care to own; that however absurd the sum you pay, you are not receiving fair value for it.

THE CENTAUR COMPANY, NEW YORK CITY

The Quincy Whig is still busily engaged in fighting against the adoption of the commission form of government by Quincy at the election soon to be held. Quincy politicians who have in the past been able to guess pretty well on election results acknowledge that with women voting on the proposition they have no idea as to what the returns will show.

And the story comes from Springfield that Thomas J. Ferns has decided not to be a candidate for circuit judge at the special election to be held in April. Mr. Ferns is said to have reached this decision partially because there seems to be the growing belief that the next general assembly of Illinois will reapportion the district. It is likely if this is done that Sangamon county will be taken from the district and added to a smaller one or more likely will be constituted a district by itself. The court business there is now months behind and it is certain that a great deal more litigation will pile up as a result of the provision in the utility commission law which gives the right of appeal from commission findings, to the Sangamon county court. Nothing further has been heard of the Jersey county proposition that all candidates for the judgeships meet and agree upon a candidate for the one year term.

CULLOM'S CLEAN RECORD.

Dispatches from Washington indicate that former Senator Shelby M. Cullom is growing gradually weaker and that his friends realize that the end of his long and useful career is not far distant. Delays in actually beginning the work of the Lincoln memorial for which congress appropriated \$2,000,000 are said to have brought on a nervous condition which has contributed to his illness.

For more than a half century Mr. Cullom has been conspicuous in political life. He began his political career when he was elected city attorney of Springfield in 1855 and a year later he was chosen a member of the twentieth general assembly of Illinois. When he retired from the U. S. senate last year it was following a service there of thirty years.

Mr. Cullom is now in his 85th year and has been in public life for practically sixty years. During all that long period no word of calumny was heard against his character. It is a wonderful and exceptional thing for a man to be so long in public life without the charge or inference of dishonesty or irregularities. But Mr. Cullom's record is clean. When he passes on to the other world, it will be as a comparatively poor man. He will leave no large estate, yet one cannot doubt that this would have been otherwise if during the long years of office holding he had chosen to look out for his own private interests.

Mr. Cullom's service to his state and the nation has been great but when he is no more his greatest monument will be the untarnished, good name that he will leave behind.

KERN SUPPORTS SULLIVAN.

Fred J. Kern, chairman of the state board of administration owns the Belleville News-Democrat and the fact that his paper recently published an editorial commending the senatorial candidacy of Roger Sullivan and incidentally poking fun at Secretary of State Woods is causing a good deal of comment in political circles. Here is the main portion of the much quoted editorial:

"It is to the credit of the Hon. Roger C. Sullivan that he did not announce himself a candidate for U. S. senator until the election of United States senators by direct vote of the people, and their nomination by direct popular primary, was made the law of the land and of the state."

"Mr. Sullivan seems to be entirely willing to submit his claims for the office to the people for the deliberation and decision."

"He declares that he is willing and ready to unroll the scroll of both his public and private records for the examination and scrutiny of the people of the state of Illinois."

"He has been for twenty-five years in the public eye, and many base insinuations and grave charges have been hurled against him."

"At times the arrows of slander have flown so thick around his head that the rays of the sun were obscured from his eyes."

"It is a noteworthy fact that no dishonest or dishonorable or unworthy or scaly act has even been proven against Mr. Sullivan."

"He is the father of a very respectable family, has been a very active and exceedingly successful business man, and is a devout and unwavering member of the Catholic church."

"He will be a strong and formidable candidate for the democratic nomination for United States senator."

"He will be opposed in some very respectable quarters because of his conservatism."

"The extreme progressives will divide their votes, however, between Keller and Piercy and Vrooman and White; while Stringer and Sullivan only will split up the conservative wing of the party."

"We almost forgot that Secretary of State Harry Woods is also a candidate for the democratic nomination for United States senator. So mote it be."

"It will be an interesting and a spirited race, with plenty of variety in the material offered to pick from. Let it go at that."

IOWA GIRL'S SUIT AGAINST FLYNN ESTATE IS DISMISSED

DES MOINES, Iowa, Jan. 21.—The suit of Miss Tolla McCoy, of Seattle, Wash., against the estate of Thomas F. Flynn, a local capitalist who died last February for failure to carry out an alleged contract to pay her \$10,000 for the injury she claimed to have suffered because of his refusal to wed her, was dismissed by Judge Wm. S. Ayres in the district court here today.

Judge Ayres decided "that contracts made in Iowa, which tend to place a restraint on marriage are contrary to public policy and therefore invalid."

Miss McCoy's attorneys announced that the case would be appealed. Miss McCoy alleged in her petition that Flynn agreed to marry her on June 1st, 1909, but did not carry out his promise and then entered into the contract, which is the basis of the suit.

TELLS OF LONG YEARS OF SERVICE AS CLERK AT THE DUNLAP HOTEL

Major John A. Vickery Reads Paper
at Meeting of Illinois Hotel Clerks' Association.

At the recent convention of the Illinois Hotel Clerks' association, held at Rock Island, Major John A. Vickery, clerk at the Dunlap hotel, read a paper regarding his 33 years of service as clerk at the Dunlap. In part it follows:

"I entered upon my duties in the Dunlap in the fall of 1880; to be exact we opened the Dunlap September 22, 1880, for supper. Captain Smith of hotel fame in the seventies and eighties, got possession of the Dunlap property some few weeks prior to the opening date and closed it for repairs. Then the opening, my, what a long time ago it seems, and is, for that matter, and when I let my mind wander back over the number of years since that opening date, I can see in my mind's eye many changes, many important and some unimportant, during that time. When we started we did the heating of that house by stoves, wood burners, mind you, large ones in the rotunda and corridors, and small ones in the bed rooms and parlors, writing rooms, etc., and charged 50 cents for rooms with heat in them. I have no difficulty in recalling to mind that sometimes there was more smoke than heat. Then in settling up it was either trouble with the guest or allowance made for the heat he did not get. Then along in 1887, I think it was, after a few years of prosperity, the proprietor got an idea that steam heat would be the thing for the Dunlap, so he had a steam heating plant installed and our troubles in that part of the business were at an end. I am told that the Dunlap was the first hotel in the state to be thus heated, that is, its bed rooms heated by steam. There were many large hotels and other large buildings which had steam heat in their offices and halls, dining rooms, etc., but none where the bed rooms were thus heated; so that is something, eh?

And as to other important changes to keep abreast of the times are too numerous and too uninteresting to write you, but if I could only remember all of the important persons, or most all, that the old Dunlap has sheltered, I could interest you some, I think. Many persons of fame have registered at our house throughout the years of my service. People of fame politically, historically, theatrically, pugilistically, etc. A long time before my time of service began at the Dunlap such historic personages of Abraham Lincoln, Stephen A. Douglas, John A. Logan and others made the old hotel their resting place, and after I went to work, Christina Nelson, Clara Louisa Kellogg, Emma Abbott and other famous singers made their stopping place at our house. Thomas A. Jefferson, Lawrence Barrett, Edwin Booth, Digby V. Bell, Lou Bennedick, Joe K. Emmett and many others of theatrical fame put up with us. Then John L. Sullivan, James Corbett, Bob Fitzsimmons and some other pugilists of 'lesser weight' came to see us; yes, and we had such men as Col. Cody, Pawnee Bill, Frank James and others of like character. My! My! But I must not weary you longer with this account of my story in one house.

"I have made fourteen changes of proprietors during my stay in this famous old house, which we have to admit is 'going some.' I could give the number of years, or months each one of them 'stood for my actions' in the Dunlap. Some of them could put up with my conduct for a few months, while others made out to endure my presence for years;

one of them, in fact, for nearly twenty years.

"I will have to ask you to indulge a few moments longer, for it would not be proper for me to close this article without saying a word for that 'mainstay' of the country hotel, the commercial man, the genial, whole-souled supporter of the best of country hotels and the best friend a deserving hotel clerk can have. He will be your friend if you are a clerk that knows your business and strive to do it. Just think of the hundreds, yes, thousands, of commercial men I have met in my long service in the Dunlap. I consider them the best friends I have on earth. I cultivated their acquaintance and most of them I would swear by, and many of them would swear by me. The commercial man on the road is the man you want to do your best for. Make him your friend and the proprietor or manager will soon see your value to their house and will in most cases hesitate quite a while before they would let you go. Therefore, I say, cultivate the acquaintance of that 'Prince of Good Fellows,' the commercial man."

PROGRESS OF NEGRO RACE.

Tuskegee, Ala., Jan. 21.—The 23rd annual session of the Tuskegee Negro conference assembled here today with an attendance representing many states. The meeting was devoted largely to a celebration showing the progress made in negro farming during the past half century. The celebration began this morning with a parade, showing the improvements that have been made in farming. The parade was headed by a negro farmer of 50 years ago, with his cob plow, ox and wooden plow. The last division of the parade showed the four horse gang plow and other modern farming implements. After the parade the farmers assembled in the chapel of Tuskegee institute and engaged in a discussion of scientific agriculture and modern methods of farming. Booker T. Washington presided and under his guidance the most vital points connected with the great southern problem were brought out and earnestly discussed by the farmers and their friends.

LABOR 'REVIVAL' IN

PENNSYLVANIA.
Harrisburg, Pa., Jan. 21.—Labor unions in all parts of Pennsylvania have made arrangements for the opening today of the great labor "revival." The campaign will last ten days and will be conducted under the auspices of the labor organization of Labor. The purpose of the movement is to stir up interest among the working people with a view to making 1914 a banner year for organized labor in Pennsylvania. Nightly meetings are to be held under the auspices of the labor organizations. Leaders of national and state labor bodies will address the meetings. Membership campaigns will be inaugurated and plans discussed for securing the enactment of laws to benefit the working classes at the next session of the legislature.

VIRGINIA FRUIT GROWERS.

Richmond, Va., Jan. 21.—The 18th annual convention of the Virginia State Horticultural society met in the Jefferson auditorium this morning and was opened by prayer by Bishop Gibson. Mayor Ansie delivered an address of welcome and S. L. Lupton of Winchester responded. A live exchange of greetings was followed by the address of President William A. Pratt of Staunton and the reports of other officers. Several addresses by horticultural experts occupied the remainder of the morning session. This afternoon the fruit growers held a joint session with the Virginia Farmers' Institute. The convention will continue until Friday.

Fifteen new members were added to the roll, bringing the total membership to 175. Reports of various committees were heard and the evening was concluded by an eloquent anti-woman suffrage address by Mrs. Emma J. Caldwell of Chicago, D. G. M. N. The meeting was called especially at this time so as to precede the annual "Everybody Go to Church Day" next Sunday when an effort will be made to have every colored citizen of Jacksonville in attendance at some one of the four churches at the morning service, and attend, if possible, the union meeting in the afternoon at 3 o'clock at Mt. Emory Baptist church. The committees who reported, with their chairmen, were: Homes and improvement, Mrs. Charles Sharpe; church work and charity, Rev. George Shaw; politics and legislation, Chas. Brannum; business and economics, Frank Mallory; resolutions and publicity, Rev. A. E. Miller; harmony and fellowship, Rev. A. A. Russell; executive board, Rev. H. H. DeWitte.

Those on the committee in charge were Mrs. Medora Bryant, Mrs. Mary Hanus, Miss Nancy Strangs, and Mrs. Mary Reed.

CHICORA LOST 19 YEARS AGO.

Chicago, Jan. 21.—Nineteen years ago today occurred one of the most tragic shipwrecks in the history of the great lakes—the loss of the Chicora of the Graham & Morton line. The Chicora left Milwaukee for St. Joseph, Mich., on Jan. 21, 1895, with a cargo of flour. Capt. Edward Stines was in command and 29 persons are known to have been aboard the ill fated craft. Although it was midwinter, the weather was mild and the lake calm. Hardly had the vessel cleared port, however, when a terrific storm arose. All that night life savers watched for the Chicora. The next day small pieces of wreckage were washed ashore. Although boats scoured the lake for days afterward, no trace of the missing vessel was ever found. It has always been the conjecture that she plunged to the bottom of the lake somewhere off South Haven, Mich.

YORK & CO**NERVOUS DYSPEPSIA,****GAS OR INDIGESTION**

Each "Pape's Diapepsin" Digests 3,000 Grains Food, Ending All Stomach Misery in Five Minutes.

Time It! Pape's Diapepsin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.

If your meals don't sit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with noxious odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

Their large fifty-cent cases contain enough "Pape's Diapepsin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.—Adv.

OLD TIME COLD CURE—DRINK TEA

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.

**DECISIVE BASEBALL BATTLE
TO BE FOUGHT IN FEDERAL COURT**

Federal League Promoters Will Fight any Attempt of Clubs in Organized Baseball to Sign Their Players.

Chicago, Jan. 21.—The decisive battle of baseball for 1914 will be fought in a federal court. This was intimated today by persons close to the promoters of the Federal League who served notice that they would fight any attempt of clubs in organized baseball to sign their players.

The legality of the reserve clause in the contracts of National and American Leagues will be the point over which the battle will rage, but when or where the contest will start was not made public. After delivering a challenge to organized ball, declaring the Federal League would "protect" its players and their contracts, President Gilmore of the new organization disappeared from sight today and therefore definite plans for the conflict if formed, have not become generally known. The announcement of the signing of William Killifer and the tentative agreement from the signing of Ad. Brennan by the Philadelphia Nationals came soon after Gilmore had warned the Quaker City club that the Federals would fight if Killifer and Brennan signed it, that it looked to the Gilmore cohorts like the formal picking up of the gauntlet.

Federal Leaguers declare themselves so confident that the reserve clause will be held illegal that they predicted tonight a grand scramble for signed ball players as soon as a court decision is made.

"If it comes to bidding for players, we will be as strong as anybody," said Charles Weegman, president of the Chicago Federals. "Organized ball knows it has no legal right to sign our ball players," said Manager Tinker of the local club. "It merely wants to tie them up so they can't play with us."

Neither Weegman nor Tinker would say whether court action would precede or follow actual participation in games by Brennan and Killifer.

In addition to other players who visited Federal league headquarters today Louis Flene and Dave Altizer of the Minneapolis American association club, and Alex Zwelling, purchased from St. Joseph by the Boston Nationals, talked with the managers of the new league today. Information came from Ban Johnson, president of the American League that Ed Sweeney, the New York Yankees' catcher, had received an offer from his club which probably would result in his remaining with the Yankees despite a good proposition from the Federals. The Chicago Federals probably will train at Mineral Wells, Texas, Manager Tinker announced tonight. Tinker will try to induce Manager Brown to bring the St. Louis team there too.

**NEW GRADES FOR CORN
WILL BE EFFECTIVE JULY 1ST**

Order Recently Promulgated by Department of Agriculture—General Rules Are Outlined.

The weekly news letter issued to crop correspondents by the United States department of agriculture gives some information about fixed and promulgated grades for commercial corn to take effect July 1, 1914.

The corn grades as promulgated by the acting secretary of agriculture are practically the same as the tentative grades formulated August 22, 1913. The principal exception is that in damaged corn, grade 4 is allowed to include one half per cent grade 5, 1 per cent, and grade 6, 3 per cent of heat-damaged or mahogany corn. This allowance for heat-damaged or mahogany corn is in response to the resolutions adopted by the Grain Dealers' National association and the National Council of Farmers' Cooperative associations, asking for allowances in this particular. The associations, however, asked for an allowance of 1 per cent for grade 4 and 2 per cent for grade 5, and the new grades permit only one-half of this amount in those two grades. The full allowance requested by these associations of 3 per cent of heat-damaged or mahogany corn in grade 4 is allowed. The request of the Grain Dealers' association that the grades be not put into effect until July 1, 1914, was granted.

General Rules.

1. The corn in grades No. 1 to No. 5, inclusive, must be sweet.
2. White corn, all grades, shall be at least 98 per cent white.
3. Yellow corn, all grades, shall be at least 95 per cent yellow.
4. Mixed corn, all grades, shall include corn of various colors not coming within the limits for color as provided for under white or yellow corn.
5. In addition to the various limits indicated, No. 6 corn may be musty, sour, and may also include corn of inferior quality, such as immature and badly blistered.
6. All corn that does not meet the requirements of either of the

six numerical grades by reason of an excessive per centage of moisture, damaged kernels, foreign matter or "cracked" corn, or corn that is hot, heat damaged, fire burnt, infested with live weevil, or otherwise of distinctly low quality, shall be classed as sample grade.

7. In No. 6 and sample grade, reasons for grading shall be stated on the inspector's certificate.

8. Finely broken corn shall include all broken particles of corn that will pass through a perforated metal sieve with round holes nine sixty-fourths of an inch in diameter.

9. "Cracked" corn shall include all coarsely broken pieces of kernels that will pass through a perforated metal sieve with round holes one-quarter of an inch in diameter, except that the finely broken corn as provided for under Rule 8 shall not be considered as "cracked" corn.

10. It is understood that the damaged corn; the foreign material, including pieces of cob, dirt, finely broken corn, other grains, etc.; and the coarsely broken or "cracked" corn, as provided for under the various grades, shall be such as occur naturally in corn when handled under good commercial conditions.

11. Moisture percentages, as provided for in these grade specifications, shall conform to results obtained by the standard method and tester as described in Circular 72, Bureau of Plant Industry, U. S. department of agriculture.

MISSION STUDY CIRCLE MEETS.

Miss Ruth Bailey Gives Interesting Review of Book, "What Next In Turkey?"

At the regular meeting of the Mission Study Circle of the Congregational church held with Mrs. J. C. Fairbank at her residence, 905 Grove street Tuesday evening, Miss Ruth Bailey gave a very interesting review of David Brewer Eddy's book, "What Next In Turkey." The subject was of especial interest to members as theirs is the only church that works in Turkey and one third of their missionaries are sent there. A profitable discussion of the subject was also held, following which a delightful social hour was enjoyed when refreshments were served.

WORD FROM GREEK SOLDIER.

Tom Colly of the Jacksonville shining parlor received a letter recently from a friend in Greece who served as a soldier in the late war and whom he had given up for dead. The soldier was a comrade of Mr. Colly's when they served in the Greek army four years ago, the 18 month term required of every young man in the kingdom. His name is Iones Kolobas and he is a native of Sparta.

Will Interest Feeders.

In this space from week to week feeders of cattle and hogs, and for that matter of all farm animals, will find some very valuable matter. Charles Wood, who during twenty years has fed 8,000 cattle and conducted many experiments in feeding, has reserved the space to tell the public generally about the methods he has found the best.

Mr. Wood's plan for getting best results is by the use of his improved grain softener and of his recently invented stover rack and troughs. The two, used in conjunction, double the nutriment value in corn and produce results which are guaranteed.

Here are the results which this method will produce and Mr. Wood is ready to guarantee the figures:

1 bushel of No. 2 corn will produce 20-lbs. pork; 12-lbs. beef.
1 bushel of No. 3 corn will produce 18-lbs. pork; 16-lbs. beef.
1 bushel of No. 4 corn will produce 16-lbs. pork; 9-lbs. beef.

Feeders will find the use of this method the surest way to make dollars. Watch this space for further facts on this subject.

WORLD'S LATEST FINANCIAL AND MARKET NEWS

DEALINGS IN BOTH STOCKS AND BONDS ON ENLARGED SCALE

Sustained Character of the
Buying Makes Market Good
One from Standpoint of the
Bullish Operators.

NEW YORK, Jan. 21.—Dealings
in both stocks and bonds were on an
enlarged scale today and prices rose
steadily. There was an insistent de-
mand for securities of all classes
and nearly eighty of the stocks
traded in made gains of from one
to two points or more. The sustained
character of the buying made the
market one of the best from the
standpoint of bullish operators of
any day since the improvement set
in last month.

The market was relieved of the
restraint under which it had labored
for several days previously while
awaiting the president's message on
anti-trust legislation. In a general
way sentiment was impressed favor-
ably by the message.

Another important factor was the
markets success of New York state's
offering of \$51,000,000 of 4 1/2
per cent bonds. The sale of this issue
at above 106 and the large over-
subscription gave direct evidence of
the improvement in the investment
situation.

The price which the bonds brought
had an immediate effect on the se-
curities market. Quotations of the bonds
"when issued" which opened around
106 1/2, shot up to 107 1/2. Throughout
the bond market prices rose on ac-
tive trading. Recent reports of im-
proving business conditions especially
in the steel and iron industry, found
trade reviews.

Why is the soda cracker today such a universal food?

People ate soda crackers in the old days, it is true—but they bought them from a barrel or box and took them home in a paper bag, their crispness and flavor all gone.

Uneeda Biscuit—soda crackers better than any ever made before—made in the greatest bakeries in the world—baked to perfection—packed to perfection—kept to perfection until you take them, oven-fresh and crisp, from their protecting package. Five cents.

Boils Are a Bad Indication

No Time Should be Lost in Purifying Your Blood.

At the first appearance of pimples and boils the blood should be given a good searching internal bath with S. S. S. the greatest blood purifier known to man. This remarkable remedy has the peculiar action of reaching through the intestines directly into the blood. In a few minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every emunctory becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder, to all work to the end of casting out every irritant, every pain-inflicting atom of poison; it dissolves by irrigation all accumulations in the joints, causes acid secretions to dissolve, renders them neutral and scatters those peculiar formations in the skin that cause boils and other skin eruptions. And best of all, this remarkable remedy is welcome to the weakest stomach. In a very brief time S. S. S. has the reconstructive process under control that all eruptive places heal. You can get S. S. S. at any drug store. Beware of any effort to sell you something claimed to be "just as good." If you are in a peculiar case and you desire expert advice, write to the Swift Specific Co., 212 Swift Bldg., Atlanta, Ga.

INDIVIDUAL ACTS OF HEROISM RECOGNIZED

CARNEGIE HERO FUND COMMISSION ADDS THIRTY NAMES TO HONOR ROLL.

Commission Holds Tenth Annual Meeting in Pittsburgh—Two Twelve Year Old Boys Are Youngest Heroes—No Gold Medals Are Awarded By Commission.

Pittsburgh, Pa., Jan. 21.—Individual acts of heroism which the Carnegie Hero Fund commission has recognized since it was established ten years ago were brought up to a total of 871 today when thirty names were added to the honor roll. RUB SORE, LAME BACK STOP BACKACHE AT ONCE

Rub Backache and Lumbago Right Out With a Small Trial Bottle of Old St. Jacobs Oil.

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges. Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get blessed relief the moment you rub your back with soothing, penetrating "St. Jacobs Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on and out comes the pain. It is perfectly harmless and doesn't burn or discolor the skin.

Lumber up! Don't suffer! Get a small trial bottle from any drug store and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years.—Adv.

Says Dr. Edwards, a Well-Known Ohio Physician.

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, you will know them by their olive color.

These tablets are wonder workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter that one's system collects.

If you have a pale face, shallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women, as well as men, take Dr. Edwards' Olive Tablets now and then just to keep in the pink of condition.

SO DECEPTIVE

Many Jacksonville People Fail To Realize the Seriousness.

Backache is so deceptive. It comes and goes—keeps you guessing.

Learn the cause—then cure it. Possibly it's weak kidneys.

That's why Doan's Kidney Pills are so effective.

They're especially for weak or disordered kidneys.

Here's a Jacksonville case. Mrs. O. Lansing, 822 N. Diamond St., Jacksonville, Ill., says: "I always praise Doan's Kidney Pills when I hear of anyone having kidney complaint. Nothing ever did my back as much good as Doan's Kidney Pills. I took them when I was almost laid up and in a short time they put me on my feet again. I have usually procured Doan's Kidney Pills at Armstrong's Drug Store and I think so highly of them that I am willing to have my statement published."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

George W. Koon, Lawton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began the use of the remedy and improved rapidly. On Monday she could move and on Wednesday she got up, dressed herself and walked out for breakfast." Sold by L. P. Alcott, druggist.—Adv.

BELIEVES SCHOOLS SHOULD HAVE PERMANENT HEALTH OFFICER

Commissioner Newman Suggest That Such an Official Would Be of Value at All Time and Especially Now.

In a communication to the Journal City Commissioner William Newman suggests that the city or rather the board of education employ a health teacher or examiner to look after the health of the children. Mr. Newman believes this is as important as other things for which persons are regularly employed by the board and he believes that such an official would give the needed relief in a situation like the present and that under ordinary circumstances that such an officer or teacher could prevent a good deal of sickness among school children.

Jacksonville, Illinois, January 21, 1914.

Editor Journal:

The past winter has been one of the most trying on the little folks of this city and consequently a hard one on their parents for several reasons. There have been semi-epidemics of several child diseases and for the past few weeks there has been a regular epidemic of sore throat and several cases of diphtheria, to say nothing of our small pox cases which have caused some little scare.

Like most everything else, some calamity has to happen to wake the wits and make them take steps, which if they had been taken before would have changed the whole aspect of things, and perhaps might have saved a good deal of trouble, and annoyance. In the last named trouble, the children were all compelled to bring health certificates from their family physician, stating they were in good health or in the event they had no family doctor to go to, they had to get one or go to the city or county doctor. Now, just what does this mean? It looks easy at first, the one of it but notice what it foots up. The parents have to take or send the child to a physician. The physician has to stop his regular practice long enough to examine the child and write out a certificate, or else write the certificate on general principles. In either case, the time of the child is taken out of school the time of the physician is taken up and the parent is worried half to death if any thing wrong. Now who pays for this work?

At present the doctors of the city are mighty undecided what to do in the matter. Their first idea is to make the certificates gratis, especially for their regular patients. But how long is this to last? Next Monday they have to have another certificate and if the sore throat is not out of the city by that time, there would probably be another one to get. In looking over the facts, it has occurred to the writer that a shorter, surer and generally more effective way should be found. What this city needs is a health examiner or teacher just as much as she needs an examiner of letters and numbers. We have our art teacher and we have our song teacher. What good are either of these if little Johnnie or Maggie have contracted sore throats and given it to the rest of the school with perhaps one or more fatalities. The cure, in my opinion, is for the city or more properly the school board to hire these health teachers or examiners.

This is my opinion and I would here suggest to the correct one of these bodies that while this contagion is rife, they hire a couple of nurses to go through the schools of the city and weed out the sick or affected ones and order them under the doctors care. Then when the trouble is over, let the school board employ a regular trained nurse for the little ones who would visit the schools the same as the art teacher or the singing teacher. How far am I right?

I firmly believe in the conservation of funds of the schools and the extension of the work as far as possible, but I do not think we should hold back or retrench in a matter where the health of our children are at stake.

This is merely a suggestion for the consideration of the commissioners and of the school board and I believe that all intelligent parents will see the wisdom of it.

W. Newman.

D. A. R. CONVENTION PLANS.

CHILDREN HATE OIL, CALOMEL AND PILLS

"California Syrup of Figs" Best For Tender Stomach, Liver, Bowels—Tastes Delicious.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeiters sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

STORY HOURS ARRANGED FOR CHILDREN AT LIBRARY

Well Known Young Women Are
Joining With Miss Webber In
Providing Interesting and Educa-
tional Program.

Story hours for children of the
upper grades of the public schools
arranged by Miss Webber of the pub-
lic library will undoubtedly prove of
great interest and value to the chil-
dren. The initial one in the series
was given yesterday when Miss
Courtney Crouch told the children
stories from the Iliad. Anyone who
chanced to look into the room where
the large number of children had as-
sembled could have no doubt as to
their interest in the story and the
way it was told. February 11th,
Miss Crouch will tell stories from
the Odyssey.

Other numbers in the course as
arranged are:
Jan. 28.—Three quaint stories of
French history of the 8th and 9th
Century—Miss Lillian Davis.
Feb. 4.—Beowulf, Miss Anna Stev-
enson.

Feb. 18.—Story of Frithjof and
Norse Legends, Miss Jeanette Reid.
Feb. 25.—Tales from Persia (Per-
sian), Miss Claribel Hopper.
March 4.—Dolls of All Times and
Different Countries, Miss Coburn.
March 11.—Capt. January by Rich-
ards, Miss Jeanette Powell.

It is announced that the doors for
the story hours will positively close
at 4 o'clock and no children will be
admitted after that time.

in most soft-coal mining sections of
the country, W. B. Miser, superin-

of Illinois steam coal. The gas coal
used by the company is from the
bituminous field of Pennsylvania.

HEDDING COLLEGE COMES SATURDAY

GAME AGAINST ILLINOIS TO BE
IN AFTERNOON.

Fast Contest Looked For When
Quintets Met in College Gym—
High School Goes to Springfield
Friday and Springfield "Y" Comes
Here Saturday Night—Routt Plays
Waverly.

Before the week is over Jack-
sonville will be represented in four
basketball games. On Friday even-
ing the High school goes to Spring-
field to play against the high school
of that place. On Saturday after-
noon at 3 o'clock, Illinois college
will meet Hedding college on the
local floor and on Saturday night
the Springfield "Y" team, better
known as the Speed Boys will play
here against the Jacksonville "Y" in
Strawn's hall. Friday night Routt
college will try to take the measure
of the Waverly High school five on
the Routt college floor.

There has been no little stir
among the basketball men the past
few days and from the looks as
though every local team will have to
go some in order to annex the con-
test.

Hedding's First Visit.
On account of fixing the Illinois
gym, Christmas vacation and sea-
son exams, the Illinois college
men have been slow in getting to-
gether. The first game they played
was against Millikin and up to that
time the men had not been together
more than twice. In the second
game against Wesleyan, the squad
was composed of second team men.
The contest Saturday afternoon
ought to give a better line on just
what the men can do. This is Hed-
ding's first visit to Jacksonville and
they are reported to have a strong
list of players. They showed up well
in the tournament last year and it
is understood that they have prac-
tically the same team. The game
was originally scheduled for Satur-
day night, but the management wired
Coach Harmon to see if the contest
could not be played in the after-
noon, as Hedding had to play Nor-
mal Friday night and the men want-
ed to return to Abingdon Saturday
evening. Under the circumstances
Coach Harmon granted their wish.

Springfield vs. Jacksonville.
What promises to be a scrappy
game is the contest Friday night in
Springfield with the team of that
city and Jacksonville high. Spring-
field has been making a good record
this year, their men being more ex-
perienced and larger physically. The
Jacksonville team is composed of
small men and what they lack in
size they will have to make up in
speed. Coach Buland has been put-
ting the squad through some heavy
work in anticipation of the game
and expects to give the Capital City
lads a hard run for their honors.
The men who go over are Reynolds,
center; Smith and Hembrough,
guards; Dale Boxell and Edwin
Pyatt, forwards; Julian Pyatt and
Fred Myers, substitutes.

Two "Y's" to Meet.
One of the fast Y. M. C. A. teams
in Central Illinois is the Speed Boys
of the Springfield "Y." Every man
is a star and all the schools they
went up against last year they de-
feated by a good score except Dec-
atur "Y," the Peoria Tigers. The
teams they have won from are De-
catur "Y," first game, Jacksonville
"Y," Blackburn college, Peoria Tig-
ers, first game; Pana "Y," Illinois
college, Shurtleff college, Litchfield
A. C., Christian Bros. college, Spald-
ing college, two games, Virden A. C.,
Illinois Wesleyan, Peoria Tigers,
third game.

The Jacksonville "Y" has been
leaving no stone unturned to give
the Speed Boys the hardest battle
of the year, and one of the fast
games ever witnessed on Strawn's
hall is expected when the whistle
blows at 8 o'clock. The local line-
up will be: Frye, Fuller, W. Boxell
and D. Boxell, forwards; Hale, Sie-
gel and McDavid, center; Maddox,
Long, D. Boxell, McDavid and Siegel,
guards.

Routt vs. Waverly.
The Routt college five have been
improving in a most satisfactory
manner, which means that the Wav-
erly squad will have to go some Fri-
day night in order to beat them.

PLAN REGIONAL BANK EMBRACING LOWER MISSISSIPPI VALLEY

Plan Laid Before Organization Committee of the Federal Reserve Association in St. Louis.

St. Louis, Mo., Jan. 21.—Plans for a regional bank district, embracing the lower Mississippi Valley from the northern border of Missouri to the Gulf of Mexico and extending as far west as western Kansas and western Texas, as far east as Eastern Kentucky and Southern Indiana, were laid before the organization committee of the federal reserve association here today. It was urged by men who appeared before Secretary McAdoo of the treasury department and Houston of the department of agriculture, that St. Louis be made the center of this district, but on this point the witnesses were not unanimous some saying the banks of their towns preferred to be in a district of which Kansas City was the center.

A. P. Waite, a banker of Joplin, Mo., said that on the solicitation of a committee from Kansas City the Clearing House association of Joplin had asked to be attached to a district having Kansas City as its center, but that he thought St. Louis would be more desirable as Joplin had heavy shipments of ore through St. Louis and he thought all the banks in Joplin carried their principal balances in St. Louis.

Physician Pronounces Malady of Little Mary Catherine Gore as Measles—Telephone Much Used By Head of Schools.

Little Mary Catherine Gore, daughter of Supt. and Mrs. W. A. Gore, has a pronounced attack of measles and Wednesday the attending physician put their residence, 244 Park street, under quarantine. For several days Mary Catherine, who by the way was the prize winner at the recent baby show in connection with the Jacksonville chautauqua, has not been well and it was not ascertained until today that the sickness was measles. The parents are inclined to think that the child caught the disease on the train while she and her mother were returning home from St. Louis. The case is not serious, but it was thought best that all precautions be taken to prevent the spread of the ailment.

Superintendent Gore's absence from his desk at the high school building necessitated his use of the phone during the day and he realized as never before what a great invention Edison made. One not acquainted with the management of the public schools little realizes how many items of business must be transacted in connection with the various grades and high school and so the good natured superintendent, who had pronounced the health certificate order as a good one and the keeping of quarantine rules the same, is obliged to be among the "shut-ins" for a few days.

PRIVATE BANK LOANED MONEY TO VARIOUS DEPARTMENT STORES

Seigel Bank Said to Have Supplied Various Seigel Stores With Money.

New York, Jan. 21.—Money deposited in the private bank of Henry Siegel & Co., was used for making loans to various department stores identified with the Siegel stores corporation according to testimony given by Frank E. Vogel today before Former United States Judge George C. Holt, a special master appointed in the receivership proceedings in which certain Siegel interests are involved.

Vogel, who was a co-partner with Henry Siegel, testified also that although his investments in the Siegel dry goods enterprises amounted to \$1,400,000 but a few thousand dollars of this money remains in his possession today. At the time of the recent failures of several concerns controlled by the Siegel stores corporation, he asserted, he was making an effort to borrow between \$400,000 and \$500,000. Unable to get this money, the crash came, said Vogel.

Much of the information requested of Vogel by counsel for a committee of depositors, the former millionaire meat packer declared he could not give out without first going over his books and papers. The total assets over liabilities are more than \$6,000,000, he testified in response to one query. "But we were handicapped by not being able to secure the necessary money to maintain this condition because of the bank cutting off credit."

When any of the stores method of borrowing from the private bank. When any of the stores needed money, he replied, the bank let them have what it could spare. Checks were drawn by his verbal order to a Mr. Champion, testified the witness and Vogel would then endorse them to whatever store needed the money.

Siegel's name, said Vogel never was on such checks.

HOW MUCH DID HE LOSE?

At a social gathering last evening the following problem came up but all could not agree as to the answer: A farmer goes into a shoe store and purchases a pair of shoes for \$6.50 handing the merchant a ten dollar bill in payment. The merchant is in need of change and takes the bill to the jeweler next door. He hands the change to the farmer who departs with his shoes and \$3.50 in change. By and by the jeweler discovers that the \$10 bill is a counterfeit and comes back to the shoe man to retrieve his loss. The question is, just how much did the shoe merchant lose?
